TITLE : ELECTRONIC APPARATUS

ABSTRACT : PURPOSE: To make the apparatus small-sized, by arranging a solar battery at the back of liquid crystal display elements and allowing the solar battery to function as a reflective plate, in the electronic apparatus having the solar battery and liquid crystal display elements.

CONSTITUTION: A proper number of shutter segments 15 are provided in addition to character segments 14 in a liquid crystal display part. Shutter segments 15 are lit and extinguished selectively in accordance with the display state. Thus, the quantity of incident light to a solar battery 4 is kept constant approximately.
